Understanding Spanish Verb Conjugation

To effectively practice conjugating Spanish verbs, it's crucial to first understand what verb conjugation is. In Spanish, verbs change their form based on several factors:

- Subject Pronouns: The subject of the sentence (I, you, he, she, we, they).
- Tenses: The time when the action occurs (present, past, future, etc.).
- Moods: The attitude of the speaker toward the action (indicative, subjunctive, imperative).

Types of Spanish Verbs

Spanish verbs are categorized into three main groups based on their infinitive endings:

1. -AR Verbs: Examples include "hablar" (to speak), "bailar" (to dance), and "cantar" (to sing).
2. -ER Verbs: Examples include "comer" (to eat), "beber" (to drink), and "leer" (to read).
3. -IR Verbs: Examples include "vivir" (to live), "escribir" (to write), and "abrir" (to open).
