

construction 1 99 guide

Construction 1 99 guide is an invaluable resource for players of the popular game RuneScape, particularly those interested in leveling up their Construction skill efficiently. Construction is one of the many skills in RuneScape, allowing players to build and furnish their own homes. This guide will provide a step-by-step approach to achieving level 99 in Construction, covering everything from the basics to advanced training methods, costs, and tips for maximizing efficiency.

Understanding Construction in RuneScape

Construction is unique among the skills in RuneScape, as it is one of the few skills that requires players to use their own resources to build items. Players can construct various types of furniture, rooms, and other structures in their player-owned houses. The skill can be trained by using materials such as planks, nails, and other building supplies, which players can acquire through various means, including purchasing from other players or using the woodcutting and crafting skills.

Why Train Construction?

Training Construction offers a range of benefits:

1. Customization: Players can design their homes to their liking, adding unique features and layouts.
2. Access to Features: Higher levels of Construction unlock various useful features, such as teleportation options, which can save time when traveling across the game.
3. Profitability: Some training methods can yield a profit, especially with high-demand items.
4. Achievement: Reaching level 99 in any skill is a prestigious accomplishment in RuneScape.

Getting Started with Construction

Before diving into the training methods, it's essential to understand the basics of Construction.

Requirements

To start training Construction, players need:

- A house, which can be purchased via the tutorial or by using the "Build Mode" option in the game.
- Some initial materials, such as planks, which can be obtained from the woodcutting skill or purchased from other players.

Building Your First Room

1. Enter Build Mode: Access your house and enter build mode by clicking on the "Build" button.
2. Choose a Room: Start by building a simple room, such as a bedroom or a workshop.
3. Add Furniture: Begin with basic furniture like a chair or table to gain experience.

Building your first room is a straightforward process that introduces players to the mechanics of Construction.

Training Methods for Construction 1-99

There are several effective training methods to reach level 99 in Construction. Below are some of the most popular methods, categorized by levels.

Levels 1-33: Basic Training

During the initial levels, players can focus on inexpensive methods to gain experience.

- Build Wooden Tables:
 - Materials: 1 plank, 1 nail.
 - Experience: 90 XP per table.
 - Cost-effective and easy to gather materials.
- Build Chairs:
 - Materials: 1 plank.
 - Experience: 60 XP per chair.
 - A good option for players looking to save on costs.

Levels 33-52: Oak Furniture

Once players reach level 33, they can start using oak materials, which provide better experience rates.

- Build Oak Tables:
 - Materials: 1 oak plank, 1 nail.
 - Experience: 120 XP per table.
 - Cost: More expensive than wooden tables, but experience gain is worth it.
- Build Oak Chairs:
 - Materials: 1 oak plank.
 - Experience: 90 XP per chair.
 - A solid choice, especially for those looking to balance cost and experience.

Levels 52-99: The Best Training Methods

As players reach higher levels, the focus shifts to methods that optimize experience per hour.

- Build Mahogany Tables:
 - Materials: 1 mahogany plank, 1 nail.
 - Experience: 140 XP per table.
 - Costly investment, but offers a high experience rate.
- Build Dungeon Doors (from level 70):
 - Materials: 1 plank of your choice.
 - Experience: 1,200 XP per door.
 - A very efficient method for leveling, as players can build multiple doors in succession.
- Build Garden Benches (from level 70):
 - Experience: 2,000 XP per bench.
 - Great if you have the resources and want to maximize experience gain.

Costs of Training Construction

Training Construction can be expensive, and players should prepare for the costs associated with materials. Below is a rough estimate of the costs involved in training from level 1 to 99:

1. Levels 1-33: Approximately 200,000 to 300,000 GP (Gold Pieces).
2. Levels 33-52: Around 500,000 GP.
3. Levels 52-99: Upwards of 10 million GP.

Overall, players can expect to spend between 10 million to 15 million GP to reach level 99 Construction, depending on the methods chosen and market prices.

Tips for Efficient Training

To ensure that your journey to level 99 Construction is as efficient as possible, consider the following tips:

- Use the House Party: Invite friends to help gather materials; this can speed up the process.
- Teleportation: Utilize the options available in your house for quick travel to construction sites.
- Banking Strategies: Use the nearest bank to your house for quick access to materials.
- Manage Resources: Always keep track of your materials to avoid running out during training sessions.

Conclusion

The **Construction 1 99 guide** provides a comprehensive overview of the methods, costs, and strategies involved in training this essential skill in RuneScape. By following the outlined methods and tips, players can efficiently reach level 99 and enjoy the many benefits that come with having a high Construction level. Whether you aim to customize your house or achieve a prestigious skill level, mastering Construction is a rewarding venture in the world of RuneScape. Happy building!

Frequently Asked Questions

What is the 'Construction 1-99 Guide'?

The 'Construction 1-99 Guide' is a comprehensive resource that outlines the most efficient methods and strategies for leveling up the Construction skill in games like RuneScape, providing players with step-by-step instructions from level 1 to 99.

What are the fastest methods to level up Construction from 1 to 99?

The fastest methods include using Oak Planks to build Oak Larders, then transitioning to Mahogany Tables and finally to the highest experience options, such as the Superior Garden or the Garden of Tranquility.

Are there any specific items required for leveling Construction?

Yes, players will need various types of planks (like logs, oak, and mahogany) and tools such as a hammer and a saw, as well as access to a house and the appropriate materials for the items they wish to build.

What is the cost associated with leveling Construction to 99?

The cost can vary significantly based on the methods chosen, but players may expect to spend several million in-game currency on materials, especially if using high-level methods like building expensive furniture or decorations.

Is it worth leveling Construction to 99?

Yes, reaching level 99 in Construction unlocks numerous benefits, including the ability to build custom houses, access to higher-level furniture, and the potential for increased efficiency in other skills that utilize Construction.

What are the best training spots for Construction?

Training typically occurs within your player-owned house, where you can construct and deconstruct furniture for experience. Popular locations for high-level training include the use of the portal room and building various items in the garden.

Are there any quests that provide Construction experience?

Yes, several quests offer Construction experience as a reward, such as 'The Family Crest' and 'The Construction Skillcape Quest', which can provide a helpful boost to your levels.

How does the 'Construction 1-99 Guide' differ between old and new game versions?

The guide may vary due to changes in game mechanics, available materials, and experience rates. Newer versions often include updated training methods and streamlined processes that reflect recent game updates.

Can I use the 'Construction 1-99 Guide' for other skills?

While primarily focused on Construction, many aspects of the guide, such as resource management and efficiency strategies, can be adapted and applied to leveling up other skills in the game.
