- Use the provided screws to secure the side panels to the back panel.

2. Add the Front Panel:

- Once the side and back panels are secure, attach the front panel using screws.

Step 3: Attach the Desk Top

1. Align the Desk Top:

- Carefully lift the desk top and align it with the frame.
- Ensure it fits snugly without any gaps.

2. Secure the Desk Top:

- Use screws to secure the desk top to the frame.
- Check for stability and make adjustments as necessary.

Step 4: Drawer Assembly (if applicable)

1. Assemble the Drawers:

- Follow the specific instructions for your desk model to assemble any drawers.
- Typically, this involves attaching the sides to the bottom panel, then securing the back.

2. Install Drawer Slides:

- Attach the slides to both the drawers and the desk frame.
- Make sure they are level with the desk to ensure smooth operation.

Step 5: Finishing Touches

1. Add Handles:

- If your desk has drawers, install the handles using the provided screws.

2. Check Stability:

- Go through each assembly point and ensure everything is tightened and secure.
- Use a level to check that the desk sits evenly on the floor.
